## Universal stands for tablets and iPads Design & Flexible

### How to mix business with pleasure ?

Ninki-UP stands are unique by their design and their characteristics. They become decorative objects that you will use everyday, like a fashion accessory that you pick to fit your style and personality. A range of 5 original designs are available.

Ninki-UP stands allows a truly pleasant and comfortable user experience with all digital tablets. **Enjoy a perfect view angle and use your free hands** to write, draw, play, in every position and everywhere, on your lap, on a bed, a couch, a desk or a table.

### You will never use your stand the same way...

Thanks to its two articulated legs and nonslip feet, this stand is extremely stable, even on a bumpy or cluttered surface.

Just adjust the articulated legs to choose the view angle you want. Once positioned, the stand keeps its stability and rigidity to allow you to have both hands free and to use the entire surface of the screen.

Thanks to its versatility and ingenuity, Ninki-UP stands can be used in every room of the house as well as in the office. Even without a tablet, you will be surprised by **the different possibilities of use they offer as well as their remarkable design.**

They are made of an acrylic plaque that is cut and shaped, which gives them a unique and classy design, unlike the usual moulding techniques which result in the showing of mould junctures and other imperfections. The acrylic is **clear like the crystal but lighter and unbreakable.**
